

Institute of Quantity Surveyors Sri Lanka

Annual Technical Proceeding 2023

26th of August, 2023

CALL FOR PAPERS

“Quantity Surveyor's Role in the Economic Revival of Sri Lanka: Leveraging Business Acumen and Commercial Management for Development”

The Annual Technical Proceeding of the Institute of Quantity Surveyors Sri Lanka (IQSSL) has been scheduled to be published in parallel to the Annual General Meeting (AGM) 2023 of the IQSSL, which is to be held on the 26th of August, 2023. The technical proceeding will provide a forum for researchers, academics, practitioners, and students to share their knowledge, interests, and experience in the field of quantity surveying.

Prospective authors are invited to submit their papers written in English on subject matters related to any of the sub-themes of the Annual Technical Sessions listed in this call.

Scope

The Institute of Quantity Surveyors Sri Lanka, as the sole body representing the quantity surveying profession in Sri Lanka, holds its Annual Technical Sessions with the intention of sharing and updating knowledge in the field of quantity surveying and fields related to the built environment, including, architecture, engineering, and facilities management.

The technical papers on research and intellectual developments that are received will be reviewed by a panel of scientific reviewers and the papers considered to be of acceptable standard will be published. The main theme of the technical proceeding is “*Quantity Surveyor's Role in the Economic Revival of Sri Lanka: Leveraging Business Acumen and Commercial Management for Development*”, and the papers could be submitted on one of the following sub-themes:

- Building Information Modelling and Information Management
- Cost Management
- Construction Procurement
- Construction Management
- Value Management
- Disaster Management
- Built Environment Education
- Energy Management
- Construction Law
- Facilities Management
- Life Cycle Costing
- Contract Administration
- Claims Management
- Entrepreneurship
- Environmental Economics and Management
- Green Buildings
- Innovative Green Technologies
- Linking Design & Construction to Operation & Maintenance
- Public Private Partnerships (PPPs)
- Process Improvement
- Resilience Buildings
- Risk Management in Construction
- Sustainable Construction Practices
- Sustainable Facilities
- Sustainable Urbanization
- Waste Management
- Innovative Construction technologies

Format for the Technical Paper Submission

The technical papers, which should include an abstract and a list of references, shall be no more than Eight (8) A4-size pages. The details of the author shall not be included in the paper. The final papers will be double-blind reviewed by two members of the review panel. The papers, which should be submitted via email to iqsslts@gmail.com, will be acknowledged. The authors of the

papers that have been selected will be informed of the comments made by the reviewers. Guidelines for the preparation of the full papers are annexed.
